"The Gentlemen of Bluegrass have the correct name. They are truly "gentlemen" and perform some of the best "bluegrass music" in the world. They know how to connect with their audience not only with their fine picking and harmony singing but they are also fantastic showmen. I have had the pleasure of working with these gentlemen several times in live performances and they have also appeared on my concert series "Song of the Mountains" which airs across the United States on public television. A crowd pleasing group for sure...the Gentlemen of Bluegrass." - **Tim White, Song of the Mountains & the Tim White Bluegrass Show**
